LEADERS IN TRAINING

If you are looking to continue your training in a **professional way**, with qualified coaches, top quality accommodation, and personalized human treatment, this is the basketball camps for you.

During the camp, you will share a room with a teammate from another region/country, creating **lifelong friendships** in an environment adapted to them.

Our methodology is based on putting the player at the center of the program. This has given us the **confidence of the families** to keep repeating in their vacations.

We offer the players the **autonomy they need for their daily life**: rules, commitment, teamwork and basketball, lots of basketball.
